

P. 63 John Lennon

We are doing a report on John Lennon. He was born in England in 1940, and died in 1980. In the 1960s, he was a member of the Beatles. The Beatles were the most popular music group of the 20th century. In the 1970s, he became a solo singer.

When he was young, John Lennon made a rock group with some friends. In 1960s, they became the Beatles. They soon became the most popular singers in the world. "Yesterday" and "Let it be" are two of their most popular songs. In 1966, the Beatles came to Japan, and played five concerts at Nippon Budokan. In 1970, the Beatles stopped playing music as a group. But John didn't stop singing. His most famous song is "Imagine". It was written in 1971. Many of his songs have a message. He always hoped for love and peace. On December 8th 1980, he was killed in front of his home. He was only 40 years old.
